

AI | Data Science | MLOps
Goiânia, Goiás, Brasil

Resumo

I am married, and I have 3 boys. I have dedicated my career to applied AI since 2004 as a student and professional. I worked on many projects, from Essay Scoring to autonomous flight. Currently, I am leading AI democratization at Brazilian retailer Americanas as Data Science & MLOps Manager. Before that, I was head of data at Konduto, an antifraud startup in Boa Vista Group. I also worked as a data science manager for Loggi, a crowdsourced delivery startup. And at Embraer, for over 9 years, I worked for the flight safety department analyzing flight data and providing statistics. After that, I moved to the R&D department, where I worked for 6 years developing prognostics and health monitoring tools to provide Integrated Vehicle Health Management and decision support systems for airlines. And 1 year at Embraer Services and Support business unit at Competitive Technologies department. Besides that, I also worked as an Ad-hoc consultant, advising and developing decision-making solutions in Education, Insurance, e-commerce, marketing, and finance.

Experiência

Centro de Excelência em Inteligência Artificial (CEIA)

AI R&D Lead

novembro de 2023 - Present (2 anos 6 meses)

Goiás, Brazil

americanas s.a.

Data Science Manager

novembro de 2021 - maio de 2025 (3 anos 7 meses)

São Paulo, Brasil

Konduto

Head of Data

janeiro de 2021 - outubro de 2021 (10 meses)

São Paulo, Brasil

Principais competências

Project Management

Leadership

Data Science

Languages

Portuguese (Native or Bilingual)

English (Full Professional)

Spanish (Limited Working)

Certifications

Data Engineering Nanodegree

Machine Learning DevOps Engineer

Honors-Awards

2014 IEEE PHM DATA
CHALLENGE WINNER

Innovation Recognition

Publications

Combining PHM Information and
System Architecture to Support
Aircraft Maintenance Planning

Use of PHM Information and System
Architecture for Optimized Aircraft
Maintenance Planning

Integrated Task Assignment and
Maintenance Recommendation
based on System Architecture and
PHM Information for UAVs

Fuel Cells Impedance Estimation
Using Regression Analysis

Fraud Prevention

1 ano 4 meses

2021 (7 meses)

São Paulo, Brasil

ho de 2020 (10 meses)

São Paulo, São Paulo

Ad-hoc AI & Data Science Consultant

outubro de 2017 - dezembro de 2020 (3 anos 3 meses)

São Paulo Area, Brazil

Past clients:

- > Novo Nordisk
- > Unindústria
- > Baseline Telematics (Insurtech)
- > Letrus (Edtech)
- > Umati Capital (Fintech)
- > Offpista (Digital Marketing)
- > Sorte Online (Online lottery)
- > Fyndiq AB (E-commerce)

Embraer

9 anos 1 mês

R&D Engineer

setembro de 2012 - setembro de 2019 (7 anos 1 mês)

Sao Jose dos Campos

I worked as a data scientist to develop decision support systems for the aviation business, AI safety research and autonomous system design.

Flight Safety Engineer

setembro de 2010 - setembro de 2012 (2 anos 1 mês)

São José dos Campos e Região, Brasil

Support to Embraer Air Safety Department developing flight data analysis and statistics.

Letrus

2017 (1 ano 9 meses)

Advise on education data mining and learning analytics and smart systems development.

IEAv - Instituto de Estudos Avançados

e 2016 (5 anos 1 mês)

São José dos Campos e Região, Brasil

Research on application of artificial intelligence techniques to integrated vehicle health management, autonomous navigation, digital image processing and remote sensing.

Universidade Paulista

Lecturer

agosto de 2012 - julho de 2013 (1 ano)

São José dos Campos e Região, Brasil

Teaching "Computer Architecture and Organization", "Numerical Methods" and "Software Engineering" undergraduate courses.

Albras

Trainee Engineer

janeiro de 2007 - junho de 2008 (1 ano 6 meses)

Barcarena - PA

Supervisory systems development and PLC programming at Carbono Automation Lab.

Formação acadêmica

INPE

Master in Science, Eletronics and Computer Engineering, Eletronics and

Computer Engineer, Computer Engineering, Computer
