Professor at UFG | AI Product & Project Manager at CEIA | PhD in Artificial Intelligence at USP
Goiânia, Goiás, Brasil

Resumo

I hold a PhD in Artificial Intelligence from the University of São Paulo (USP) and work at the intersection of Natural Language Processing, Software Engineering, and AI-driven product development. I am a professor and researcher at the Federal University of Goiás (UFG) and have been leading Research, Development, and Innovation (RD&I) projects for more than 15 years.

For the past seven years, I have been part of the Center of Excellence in Artificial Intelligence (CEIA/UFG), where I contribute to the development of large-scale AI initiatives in partnership with organizations such as Brazil's Ministry of Education (MEC), Positivo Tecnologia, Birdie.ai (headquartered in Silicon Valley), and the Public Prosecutor's Office of the State of Goiás (MPGO). My work focuses on translating cutting-edge AI research into real-world solutions that drive innovation and operational impact.

Experiência

Centro de Excelência em Inteligência Artificial (CEIA) & Deep Learning Brasil

AI Product & Project Manager
julho de 2018 - Present (8 anos)

Management of products and projects associated with Research and Development projects of the Center of Excellence in Artificial Intelligence (CEIA).

Key clients for Research, Development and Innovation projects:

- Positivo Tecnologia (positivotecnologia.com.br)
- Birdie.Ai (birdie.ai)
- Ministério da Educação (gov.br/mec)
- Ministério Público do Estado de Goiás (mpgo.mp.br)

Universidade Federal de Goiás

e 2013 - Present (12 anos 7 meses)

Effective professor at Instituto de Informática (INF) acting in the courses of Software Engineering, Computer Science, Information Systems and Artificial Intelligence

USP - Universidade de São Paulo

AI PhD Researcher

março de 2020 - fevereiro de 2025 (5 anos)

São Carlos, São Paulo, Brasil

Research-related areas:

- Artificial Intelligence -> Machine Learning -> Deep Learning
- Natural Language Processing -> Language Models -> Bidirectional Transformers and Large Language Models (LLM)
- Data Mining -> Text Mining -> Opinion Mining
- Software Engineering
- Software Product Strategy

Scientific Productions during the PhD period:

1. National Conference (ENIAC'20): From Bag-of-Words to Pre-trained Neural Language Models: Improving Automatic Classification of App Reviews for Requirements Engineering, XVII ENIAC.
2. International Conference (SAC'21): RE-BERT: automatic extraction of software requirements from app reviews using BERT language model. 36th ACM Symposium on Applied Computing.
3. National Conference (SBES'21): Hierarchical cluster labeling of software requirements using contextual word embeddings. Brazilian Symposium on Software Engineering.
4. International Journal (ASE'22): Opinion Mining for App Reviews: An Analysis of Textual Representation and Predictive Models. Automated Software Engineering.
5. International Journal (IST'22): Detecting Relevant App Reviews for Software Evolution and Maintenance through Multimodal One-Class Learning. Information and Software Technology.
6. International Journal (PCS'22): Temporal dynamics of Requirements Engineering from mobile app reviews. PeerJ Computer Science.
7. International Conference (LXAI'22): Link Prediction from Heterogeneous Opinion Mining Networks with Multi-Domain Applications. LatinX in AI.

8. International Journal (ASE'25): RE-LLM: A Fine-Tuned Large Language Model for Multitasking App Review Analysis. Automated Software Engineering.

Innovation production during the PhD period:

Raising 15 million in partnership between University and Industry, where I led more than 50 Research and Innovation scholarship holders in the construction of three new software platforms integrated with data collection, data engineering and artificial intelligence pipelines.

Pontifícia Universidade Católica de Goiás

013 - julho de 2018 (5 anos)

Goiânia e Região, Brasil

Effective professor at Escola de Ciências Exatas e da Computação (ECEC) acting in the courses of Computer Science, Computer Engineering and Analysis and Systems Development.

Decisão Sistemas

9 anos 6 meses

Product & Project Manager

março de 2014 - fevereiro de 2018 (4 anos)

Main activities: Product Discovery; Product Backlog Management; Product Strategy Design; Business Strategy Design; Software Development Project Management; Software Architecture Definition

Research & Development Manager

janeiro de 2011 - fevereiro de 2014 (3 anos 2 meses)

Main activities:

- Management of R&DI projects related to Software Products, Software Processes and Organizational Culture
- Writing projects to bid for Research, Development and Innovation (RD&I)
- Writing reports and papers related to RD&I projects
- Execution of part of the technical tasks related to RD&I projects

Software Engineer

setembro de 2008 - fevereiro de 2011 (2 anos 6 meses)

Main activities:

- Code software improvements
- Resolve critical issues encountered by production customers
- Elicit, analyze, specify software requirements
- Plan, model, specify and automate software testing

- Manage requirements and defects
- Plan and execute Quality Assurance Assessments in software process and product

Universidade Federal de Goiás

MSc. Researcher

abril de 2010 - março de 2013 (3 anos)

Research-related areas:

- Test Maturity Model integration (TMMi)

The survey was applied to 10 companies in the software industry in the state of Goiás. The results were published in international conference.

Brasil Telecom

2 anos

Operations Assistant

dezembro de 2007 - setembro de 2008 (10 meses)

Goiânia, Goiás, Brasil

Customer Service

outubro de 2006 - novembro de 2007 (1 ano 2 meses)

Goiânia, Goiás, Brasil

ARD CONTABILIDADE

Accounting Assistant

fevereiro de 2000 - fevereiro de 2005 (5 anos 1 mês)

Formação acadêmica

Universidade de São Paulo

Doctor of Philosophy - PhD, Artificial Intelligence · (fevereiro de 2020 - fevereiro de 2025)

Universidade Federal de Goiás

Master's degree, Software Engineering · (fevereiro de 2011 - fevereiro de 2013)

Pontifícia Universidade Católica de Goiás

Bachelor's degree, Science Computer · (fevereiro de 2005 - junho de 2009)
