1. Deal Flow Support

- Reviewing inbound startup pitches
- Performing initial research on companies, founders, and markets
- Tagging, scoring, and organizing pipeline data in a CRM (e.g., Affinity, Airtable, Notion)
- Designed and launched a custom VC Evaluator Tool leveraging GPT to streamline pitch deck analysis and startup scoring, significantly improving decision-making speed for the investment team.

2. Due Diligence

- Supporting due diligence calls by note-taking
- Drafting or contributing to deal memos
- Conducting market sizing or competitive landscape analysis

3. Events & Networking

- Attending demo days, pitch competitions, and founder events
- Representing the fund at ecosystem events or virtually
- Sourcing startups or warm leads from communities

4. Platform & Content

- Writing blog posts, newsletters, or founder guides

WE AutoPilot Club

Member

January 2025 - Present (1 year 6 months)

London, Ontario, Canada

On the autonomy team of this club to help build self driving cars.

1 year 2 months

September 2024 - February 2025 (5 months)

Toronto, Ontario, Canada

1. Collaborated with the founder and product lead to shape the roadmap for an AI-powered back-office platform for service SMBs.
2. Contributed to feature ideation and scoping for the MVP, including invoicing, automation.
3. Built workflow diagrams for customer, owner, and team journeys to clarify user experience and define core features.
4. Conducted market research on SMB workflows in industries like landscaping, HVAC, and electrical services to validate the feature set.
5. Assisted in MVP planning and outlined the Next.js front-end stack for the first version.
