Summary

Sou executivo e evangelista em Inteligência Artificial e Inovação,

100 Global Influencers pela Onalytica nas áreas de Transformação
Digital (2021) e Internet das Coisas (2022).

Ao longo de três décadas de atuação na América Latina, venho
liderando projetos estratégicos de inovação em governos,
multinacionais, startups e organismos multilaterais. Atualmente, sou
Diretor de Soluções da Xertica – líder em nuvem pública e serviços
gerenciados e Coordenador do Comitê de Meios de Pagamento da
camara-e.net.

Minha missão é acelerar a adoção estratégica da IA Generativa e
da Transformação Digital em empresas e instituições que buscam
relevância, escalabilidade e impacto nos negócios.

Já palestrei em mais de 15 países (incluindo EUA, Reino Unido,
Espanha, Emirados Árabes, Portugal e América Latina), e atuo
como mentor internacional na Aceleradora Sueco-Norueguesa de
HealthTechs – Digital Well Ventures.

Minha experiência combina visão de negócio, sólida base técnica e
fluência em três idiomas (português, inglês e espanhol), conectando
tecnologia, estratégia e liderança para transformar empresas por
meio da inovação.

I am an executive and evangelist in Artificial Intelligence and

among the Top 100 Global Influencers by Onalytica in Digital
Transformation (2021) and Internet of Things (2022).

With 30+ years of experience across Latin America, I've led strategic innovation projects within governments, global corporations, startups, and multilateral organizations. Currently, I serve as Solutions Director at Xertica, a leading provider of public cloud and managed services, and as Coordinator of the Payments Committee at camara-e.net, Latin America's most influential digital economy chamber.

My mission is to accelerate the strategic adoption of Generative AI and Digital Transformation for organizations aiming for relevance, scalability, and measurable business impact.

I've spoken in 15+ countries—including the US, UK, Spain, UAE, Portugal, and across Latin America—and act as an international mentor at the Swedish-Norwegian HealthTech Accelerator, Digital Well Ventures.

My background combines business leadership, deep technical knowledge, and trilingual fluency (Portuguese, English, Spanish), bridging technology, strategy, and executive vision to drive meaningful innovation.

Let's connect if you're looking to explore how AI, Cloud, and emerging technologies can transform your business or ecosystem.

IoT Manifesto

We believe that connectivity is more than just technology. It's part of our lives. It improves mobility, shapes the cities of the future, and makes homes smarter, industry connected, and healthcare more efficient. In every sphere, Vecto Mobile is working towards a connected world.

A world that opens up possibilities no one could ever have imagined.

So let's go beyond building connected devices. Let's build connections with real benefits – around the world, across the web, within the cloud. Let's connect founders with funders, dreamers with doers, parts with the whole. Let's link the virtual and the physical and leave a lasting legacy in our world.

Simply be Connected...

noticias/2008/not-080609.html

Digital Mercosul Project:

European Union and Mercosul Block (Argentina, Brazil, Paraguay and Uruguay) working together in order to foster joint policies and strategies in the field of Information Society and to reduce the Digital Divide and the Asymmetries related to ICTs in the region.

Digital Mercosul Project sought to establish a regulatory framework on data protection, electronic invoicing and digital certificates, aiming at providing security and legal validity for the agreements and documents signed in digital form. The ultimate goal was to enable faster and more reliable transactions, in order to improve the production and trade integration and expand the market horizons to small and medium-sized local businesses.

eonde - Entertainment on Demand

Via Internet SA

Founder & Technical Director

June 1996 - June 1999 (3 years 1 month)

Fundada em Brasília no ano de 1995, a Via Internet S.A. atua no mercado de seguros, focada na distribuição/varejo de produtos do setor.

Desenvolvida, paralelamente à evolução das Tecnologias de Informação e Comunicação (TICs) no Brasil, a Via Internet reconheceu os novos paradigmas pautados, em especial, pela inovação, excelência na entrega,

aliança entre parceiros, flexibilização e processos colaborativos e adotou o modelo de Organização Digital (OD).

Desta forma, a companhia atua com quadros permanentemente reduzidos, descentralizados, e com alianças corporativas, visando extrair melhores potencialidades para contribuir com o desenvolvimento do setor de seguros e todas as suas esferas de varejo.
